

WELCOME TO THE ROAD HOLE BAR

If you have a passion for Single Malt Whisky,
It has such rich history.

The appeal to us is no mystery,
There's surely no place better to be.

We have bottles from the past,
Whose drams won't last.
They've emptied their stills,
And now are still.

Now looking ahead, the futures bright,
Making for such a glorious sight.
With techniques new and interesting,
It's time to start investing.

Moving away from showing ages, making a statement,
Now they're getting some specialist treatment.

Casks of Rum, Port and Sherry,
Work to make our taste buds merry.

Vintage runs from Yesteryear,
Bound to make us jump and cheer.
You'll find all of this at Road Hole Bar,
Drink up friend – Slàinte Mhath!

"When we drink we get drunk. When we get drunk we fall asleep. When we fall asleep we commit no sin. When we commit no sin, we go to heaven. Sooooo, let's all get drunk and go to heaven!"

SPEYSIDE

Speyside is a small part of the Highland region, located around the river Spey in the northeast of Scotland. Although Speyside is very small, no other region contains more operating distilleries. Speyside Malts are very rich and complex whiskies with notes of fruits, honey, toffee and chocolate.

LOWLANDS

The Lowland region lies south of an imaginary line between Greenock and Dundee. From more than 200 distilleries in the late 19th century, nowadays only a handful are still operating.

Lowland Malts are generally lighter in body and flavour than their counterparts from other regions. They tend to be gentle and subtle, fragrant with herbal and grassy flavours and usually have a relatively dry finish. Since they are not, or only slightly, peated they are an excellent choice for beginners.

HIGHLANDS

The Highlands cover more than half of Scotland and the landscape, with all its lakes and mountains, is world famous.

While malts from the northern Highlands are more salty with notes of seaweed, the whiskies from the east are dryer with more body and a little smokiness and their counterparts from Perthshire are cleaner, lighter and sweeter.

ISLANDS

Strictly speaking the Islands belong to the highland region but are sometimes referred to as a region of its own simply by geographical reasons. The Island region includes all Scottish islands except Islay.

Island Malts are hard to define since they all have their own individual style. Most of them are peated but less so than the malts from Islay and they are generally complex and powerful drinks, with spicy and seaweed notes.

ISLAY

Known as "The Queen of the Hebrides" Islay is the southernmost island of the Inner Hebrides and is home to eight working distilleries.

Islay Malts are very easy to identify. Heavily peated, very pungent with notes of salt and seaweed on the palate, they sometimes seem to be more of a medicine than a whisky. These Malts are equally loved and hated by whisky enthusiasts all over the world.

CAMPBELTOWN

Before Prohibition started in the US, Campbeltown was home to more than 30 distilleries. Its location made it the ideal place to produce whisky for shipping across the ocean. But with alcohol becoming illegal in the States in 1920, the distilleries in Campbeltown started dying and today there are less than a handful still in production. The malts tend to be dry, full bodied with a distinct smokiness and salty notes.

**"Now it's closing time, the music's fading out
Last call for drinks, I'll have another stout
Well I turn around to look at you
You're nowhere to be found
I search the place for your lost face
Guess I'll have another round
And I think that I just fell in love with you."**
