The Macallan James Bond 60th Anniversary

DECADE III

In the 1980s Roger Moore's playfulness gave way to a different tone with the arrival of Timothy Dalton as the next Bond. Dalton's brooding depth revealed new levels of the character. He fulfilled his duties heroically, his burden willingly shouldered.

The packaging design features a logo concept art from Octopussy (1983), an A.T.A.C Operations area sketch and storyboard sequence for the film For Your Eyes Only (1981).

DECADE V

Leaving the 90s behind, Daniel Craig embodies the Bond of the noughties. The setting, ingredients, character and dedication to craft combine to deliver an utterly compelling result.

The packaging design features a dramatic car sequence from Casino Royale (2006), and a digitally sketched rooftop chase in Quantum Of Solace (2008).

COLOUR

Suisse (Swiss) gold

NOSE

Fresh and vibrant notes of lemon and lime, a sprinkle of sherbet, page the way for sweet vanilla and coconut, with a hint of dried fig and raisin.

PALATE

Orange zest and fizzy sherbet with a lemon freshness, gentle oak and subtle ginger spice, leading into a deep dark chocolate, figs and baked apple tart with a honey drizzle.

FINISH

Sweet and long with complexed layers.

Speyside

Speyside is a small part of the Highland region, located around the river Spey in the northeast of Scotland. Although Speyside is very small, no other region contains more operating distilleries. Speyside Malts are very rich and complex whiskies with notes of fruits, honey, toffee and chocolate.

MARK TWAIN

Lowland

The Lowland region lies south of an imaginary line between Greenock and Dundee. From more than 200 distilleries in the late 19th century, nowadays only a handful are still operating.

Lowland Malts are generally lighter in body and flavour than their counterparts from other regions. They tend to be gentle and subtle, fragrant with herbal and grassy flavours and usually have a relatively dry finish. Since they are not, or only slightly, peated they are an excellent choice for beginners.

ROBERT BURNS

Highland

The Highlands covers more than half of Scotland, and the landscape, with all its lakes and mountains, is world famous.

Malts from the northern Highlands are more salty with notes of seaweed, while the whiskies from the east are drier with more body and a little smokiness. Their counterparts from Perthshire are cleaner, lighter and sweeter.

Campbeltown

Before Prohibition started in the US, Campbeltown was home to more than 30 distilleries. Its location made it the ideal place to produce whisky for shipping across the ocean. But with alcohol becoming illegal in the States in 1920, the distilleries in Campbeltown started dying and today there are less than a handful still in production. The malts tend to be dry and full bodied with a distinct smokiness and salty notes.

GEORGE BERNARD SHAW

Islay

Known as “The Queen of the Hebrides” Islay is the southernmost island of the Inner Hebrides and is home to eight working distilleries.

Islay Malts are very easy to identify. Heavily peated, very pungent with notes of salt and seaweed on the palate, they sometimes seem to be more of a medicine than a whisky. These Malts are equally loved and hated by whisky enthusiasts all over the world.

“The light music of whiskey falling into a glass – an agreeable interlude.”

JAMES JOYCE

Island

Strictly speaking the Islands belong to the highland region but are sometimes referred to as a region of its own simply by geographical reasons. The Island region includes all Scottish islands except Islay.

Island Malts are hard to define since they all have their own individual style. Most of them are peated but less so than the malts from Islay and they are generally complex and powerful drinks, with spicy and seaweed notes.
